STABILA applies for the development, production and distribution of spirit levels a quality management, which fulfils the requirements of DIN ISO 9001:2000. During production, the spirit levels are checked after every fabrication step.

Our spirit levels have following measurement accuracies:

series 70: in normal position $0,029^\circ = 0,5\text{mm/m}$

series 80A, 81, 96, 196: in normal position $0,029^\circ = 0,5\text{mm/m}$,
overhead measurements $0,043^\circ = 0,75\text{mm/m}$

series 83: in normal position $0,029^\circ = 0,5\text{mm/m}$,
overhead measurements $0,029^\circ = 0,5\text{mm/m}$

We confirm, that all our spirit levels will have the guaranteed characteristics when they leave the factory.
