ICONS

USB Type-C Compatible

This device charges with the popular USB Type-C cable and any USB power source.

Power Bank Compatible

The battery pack can also be used as a power source to charge your devices.

STT (Smart Torch Technology)

Lights with this technology can be connected to a computer and their features programmed through NEXTUNER software.

USB Micro-B Compatible

This device can be charged with a USB Micro-B, also known as a Micro USB, cable and any USB power source.

Power Status Indication

The charge level of a flashlight's rechargeable battery can be checked with external LED indicators.

S.O.S.

An abbreviation for "Save Our Ship," this is the traditional Morse code signal for distress. In flashlights, it is a mode that automatically flashes this code as a visual distress signal.

OSS (One-Step Strobe)

A flashlight switch that activates the light in momentary-on mode with light pressure and in strobe mode with heavy pressure.

Ceramic Glass Breaker

This product features a nanoceramic strike tip (or tips) that can be used to break glass in a vehicle or building in an emergency.

Flexible Battery Solutions

This flashlight can be powered by multiple types of batteries.

DUO SWITCH

A switch design that activates multiple modes with a single button: Tap for momentary on, double tap for strobe, click for constant on, then tap to cycle through additional mode options.

Tactical Strobe

The flashlight has a strobe function that strobes the light at 10-12 Hz to disorient your opponent and disrupt his vision so you can gain the advantage. The strobe can also be used as a signaling device.

360-degree Focus Adjustable

The flashlight has a focus-adjustable beam which can be adjusted by rotating the flashlight head through a full 360-degree range.

Multi-Light-Source Technology

The flashlight has multiple light sources. By rotating the flashlight head or an external dial, you can select the desired light source.

Laser Sight

The weapon-mounted light features a laser (visible or infrared) that allows it to serve as an aiming device or sight for the firearm.

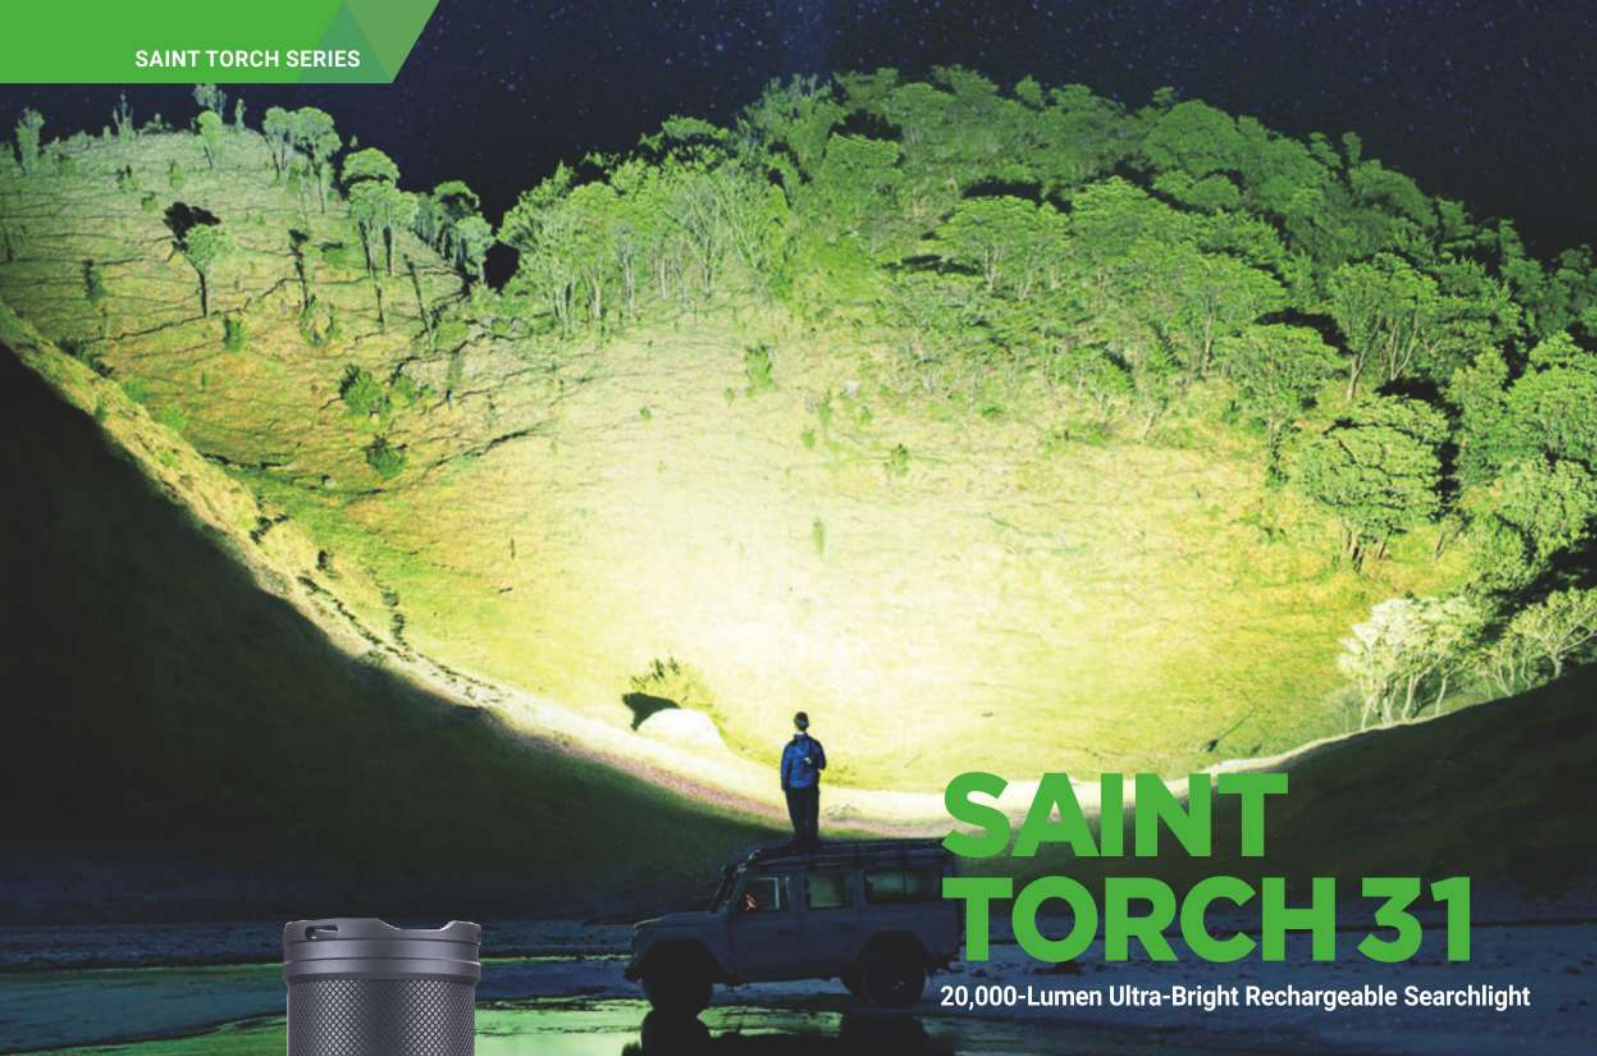

RSL Technology Inside

The bike light is equipped with NEXTORCH's Rectangular Spot Lens (RSL), which emits a 160-degree-wide beam in a rectangular spot pattern.

SAINT TORCH SERIES

The Saint Torch series features NexTorch's flagship searchlights. Designed for the demanding needs of rescue, adventure, and professional applications, these lights feature exceptional brightness, ergonomics, and human engineering.

GLO-TOOB®

GLO-TOOB is a personal signal light that was conceived in 1996 by Dave Kessel and Lewton Levy after a night SCUBA dive in South Africa. Disappointed with the product they were using at that time because it was unreliable and environmentally unfriendly, they decided to design a signal light specifically for the SCUBA market. Kessel approached NEXTORCH with the idea and, after several years of intensive research, development, and real-world testing, GLO-TOOB was born. Released in 2002, this revolutionary patented personal signal light has not only set a new standard in the SCUBA community, but also earned a devoted following among military, law enforcement, and adventure sports users.

Chargers

DC10 UNIVERSAL BATTERY CHARGER

* Battery not included

This universal battery charger is compatible with any 5 V USB power source. Its battery compartment extends to accept 10440, 14500, 16340, and 18650 batteries. It can effectively charge batteries that have been over-discharged or stored for extended periods and includes overcharge protection circuitry.

18650 CHARGER KIT

This kit includes a 2600 mAh 18650 rechargeable Li-ion battery, a car charger, and an AC charger. Compatible with the T5, TA30, TA5, PA5, P5 Dual Light, TA40, and TA40 SET.

Flashlight Accessories and Other Items

HM30 Multi-Purpose Handle

Specially designed for the Saint Torch series, this handle provides a comfortable, convenient grip. It also includes threaded holes for mounting to a tripod or for use as a weapon light.

4 × 2600 mAh

BA30 Fast-Charging Waterproof Li-ion Battery Pack/Power Bank

This battery pack fits the Saint Torch 11 and Saint Torch 30 V2.0 searchlights. It also serves as a power bank to power other devices. It has a built-in USB Type-C port, is IPX7 waterproof to a depth of 1 meter, and is impact resistant and dust-proof. It reaches a full charge in only 3 hours and can be recharged 500 times.

V30 Multi-Function Carry Bag

This handy carry bag is made from durable, water-resistant nylon. Its large interior compartment includes hook-and-loop-fastened dividers that allow it to be easily configured to organize your gear. It includes a carry handle, removeable shoulder straps, and external MOLLE webbing for attaching accessory pouches.

V51 Quick-Draw Flashlight Holster

Carry your flashlight so it's instantly accessible with this quick-draw holster. It features a quick-release locking lever and an open-ended design that allows hands-free lighting with the light in the holster. The holster body rotates 360 degrees and locks in 16 positions, so you can orient the light exactly where you want. It works with flashlights with body diameters from 25-32 mm (1.00-1.25 in), fits belts up to 55mm (2.17 in) wide, and mounts on MOLLE webbing.

V6 Adjustable Tension Holster

The unique design of this holster allows you to adjust the tension of the holster body with rubber "O" rings. Its open-bottomed construction holds flashlights bezel-up or bezel-down and fits flashlights with diameters from 27-30 mm (1.06-1.18 in). It mounts to MOLLE and belts up to 55mm (2.17 in) wide and its body rotates 360 degrees.

V10 Nylon Holster

Constructed with durable 1000D Cordura® nylon, this versatile belt holster fits belts up to 80 mm (3.15 in) wide and is compatible with NEXTORCH models P80, P60, TA5, TA40, and T7.

TS41-L Tactical Remote Switch

This waterproof pressure switch allows the remote activation of weapon-mounted lights while maintaining your firing grip. It provides both constant-on and momentary activation and is compatible with our T7, T5G, T53, TA4, and TA40 flashlights.

V61 Quick-Draw Flashlight Holster

The unique design of this holster allows you to adjust the tension of the holster body with rubber "O" rings. Its open-bottomed construction holds flashlights bezel-up or bezel-down and fits flashlights with diameters from 27-30 mm (1.06-1.18 in). The holster body rotates 360 degrees and locks in 16 positions. Its versatile mount fits belts up to 55mm (2.17 in) wide and mounts to MOLLE webbing.

V5 Tactical Polymer Holster

This versatile holster features a quick-release locking lever and an open-ended design that allows hands-free lighting with the light in the holster. The holster body rotates 360 degrees and fits flashlights with a body diameter of 25 – 32 mm (1 – 1.25 in). Designed for carry on belts up to 50 mm (2 in) wide.

FR-1 Tactical Flashlight Ring

This innovative accessory enhances your capabilities when using your flashlight in tactical or self-defense situations. It functions as a deep-pocket carry clip, yet provides a quick draw and improved retention. It also works with a variety of low-light shooting positions and can even be used as a striking tool at close quarters. Available in three colors, it fits flashlights with tail cap switches and body diameters of 23.2–25.5 mm (0.91-1.00 in), including the TA30, TA01, and E6.

FT32 Color Filter Kit

Increase the versatility of your flashlight with these high-quality colored filters. This kit includes three colored filter lenses (red, green, and blue) and a slip-on filter mount that is compatible with our TA40, TA3, T6A, T5, PA5, and P60 flashlights.

V31 Quick-Draw Flashlight Holster

This holster was specifically designed to fit NEXTORCH's TA30 and TA01 flashlights with the FR-1 Tactical Flashlight Ring. It fits belts up to 55mm (2.17 in) wide and mounts to MOLLE webbing.

V1 Nylon Holster

This versatile nylon holster fits NEXTORCH models TA30, TA15, TA5, PA5, DUAL LIGHT, TA40, T6A, myTorch S, and myTorch S XL. It mounts vertically on a belt and features a hook-and-loop-secured protective flap.

FR-2 Tactical Flashlight Ring

Enhance your capabilities when using your flashlight in tactical or self-defense situations with this innovative flashlight ring. It functions as a deep-pocket carry clip, yet provides a quick draw and improved retention. It also supports many low-light shooting positions and can even be used as a striking tool at close quarters. Available in three colors, it fits flashlights with tail cap switches and body diameters of 25-27 mm (0.98-1.06 in), including the TA30 MAX and TA5.

V40 Multi-Tool and Flashlight Leather Holster

Made of premium leather, this holster holds both a flashlight and a multi-tool. Its belt slots accommodate belts up to 55 mm (2.17 in) wide and can be worn in two ways, with the tools oriented vertically or horizontally.

Helmet Flashlight Mount

HM1 Helmet Flashlight Mount

This versatile mount quickly attaches to any helmet with two threaded knobs. The mount body rotates 360 degrees and fits flashlights with body diameters of 18-35mm (0.71-1.38 in).

RM25S Tactical Picatinny Light Mount

This precision-machined mount allows any flashlight with a body diameter of 22-26.5 mm (0.87-1.04 in) to be easily attached to a firearm with a Picatinny rail.

RM87 Magnetic Universal Mount

Fits flashlight body size:
23 mm-26.5 mm (0.91"-1.04")

TRAFFIC WAND

Designed to fit flashlights with head diameters of 33-38 mm (1.30-1.50 in), this accessory transforms a flashlight into an illuminated traffic wand.

HM2 Lightweight Multi-Angle Flashlight Mount

This versatile mount easily attaches to helmets and other surfaces with double-sided 3M adhesive strip. The light holder rotates 360 degrees and fits lights with body diameters of 22-30 mm (0.87-1.15 in).

RM85 Quick Attach/Detach Scope Mount

Mount any flashlight with a body diameter of 20-28 mm (0.79-1.10 in) to a firearm scope with this quick-mount clamp. It installs without tools and fits scopes with tube diameters of 25.6-30 mm (1.00-1.18 in)

BM1 Bike Flashlight Mount

Fits flashlight body size: 23 mm-28 mm (0.9"-1.1");
fits steel pipe size: 22 mm-25.6 mm (0.87"-1.0")

SL20 Waterproof Bicycle Signal Light

Make sure drivers can see you when you are riding your bicycle with this high-visibility signal light. It easily attaches to any bicycle with the included hook-and-loop fasteners and offers both slow and fast red & blue flashing modes.

HM3 Headlamp Helmet Clip

This injection-molded nylon clip allows NEXTORCH headlamps to be securely mounted on most helmets. The clip attaches to the headlamp strap and then hooks under the edge of the helmet.

RM85S Universal Tactical Mount

Mount any flashlight with a body diameter of 23-28 mm (0.91-1.10 in) to a long-gun barrel with this quick-mount clamp. It installs without tools and fits guns with barrel diameters of 25.6-30 mm (1.00-1.18 in)

NEX BATON

TR CERTIFICATE

NEX is a division of NEXTORCH dedicated to designing and manufacturing the world's finest tactical batons. The heart of every NEX baton is our innovative NEX Lock—a precision-machined mechanism that locks the baton's sections rigidly open when the baton is extended yet allows it to be easily closed with the press of a button. Manufactured to exacting tolerances from the finest materials, NEX batons set a new standard in tactical baton quality and reliability.
